

Grading Rubric

CS250

Assignment 7

Total Points: 100

Points Allotted:

- Compilation and running as expected 30
- Correct number of files: .h, and .cpp, .txt files 10
- Correctly using getter and setter functions 30
- Member variables are private 20
- Style: Comments and indentations 10

Important notes:

- Submission **with different file name other than Assg7_cslogin**, will be penalized 10 points.
- For any submission that fails compilation you won't get points for the first criterion.
- Students are allowed to submit 3 times before the due date, we will **only grade** your last submission.
- You are expected to start working on the assignment(s) early enough to give yourself adequate time before the due date. Any submission **after the due** date will **not be graded (unmarked)**.
- Assignments submitted through "**Emails**" will not be accepted and they **will not be graded**.
